Must follow bed motions when adjusting in height, 338 lb maximum, to be used only with double electric bed (SAP 051574). *Rotec Varitech 051573 Each*

---

**Please note:**
Director’s approval required on all orders for double electric beds (SAP-51574).

**Extra shipping charges may apply on some rural requests. Please check with MDA.**
Hospital Beds

**Etude HC Homecare Bed**

The ETUDE Homecare Bed is simple to operate and easy to handle. Features include: assembly without tools, 8-function hand control with lock out feature, power operated head and floor deck sections, Beech head and foot board, conforms to IEC Bed Standard IEC60601-2-52, weight capacity: 360 lbs patient weight, 440 lbs inclusive of all accessories, sleeping surface: 36” W x 80” L and dimensions: 40” W x 86.5” L with deck height: 10\(\frac{3}{4}\)” to 26\(\frac{3}{4}\)” max (measurement from floor to bed deck). Alternative deck height of 8” to 24\(\frac{3}{4}\)” can be requested.

(A) 064002 Each

**NOTE:** When choosing rails, placement is critical. The side of the bed that the rails are to be installed on must be known at the time of ordering. To determine left or right, you must be at the foot of the bed and facing the head of the bed for proper orientation.

**Side Support Rail (Stationary)**

The fixed side support rails allow for safe and simple transfers. These \(\frac{3}{4}\) and \(\frac{1}{2}\) rails allow for safe positioning and transfer support, while ensuring user safety by meeting global bed standard entrapment guidelines.

\(\frac{1}{2}\) Rail – Model #ESR-2478 – 16” L x 16” H.

Standard

(B) 064006 Each (Monthly Rental)

\(\frac{3}{4}\) Rail – Model #ESR-2477 – 12” L x 16” H.

OT or PT approval required.

064004 Each (Monthly Rental)
**Hospital Beds**

**Verso Side Support Rail (Fold Down)**  
*Program Consultant approval required.*  
This is ¾-length rail provides a unique collapsible folding solution, ¾ Rail – Model #EVSR-1823 – 99” L x 15” H.

- **Left**  
  (A) 064005L Each (Monthly Rental)

- **Right**  
  064005R Each (Monthly Rental)

**Side Swivel Transfer Supports (Left/Right Swivel)**  
*OT or PT approval required.*  
The swivel handles provide a unique solution for users in search of a low profile, discreet transfer aid. These handles remain below the surface of the mattress and easily swing out and lock into position to provide necessary transfer support on the right or left hand side of the bed. 13½” L x 8” H (flush with mattress surface).

- **Left side.** ESSH-2479  
  (B) 063994E Each (Monthly Rental)

- **Right side.** ESSHR-2480  
  063995E Each (Monthly Rental)

**Lifting Support Pole (trapeze kit)**  
This lifting support provides safe and convenient overhead repositioning assistance while in bed. The support kit allows for tool-free mounting and securely fits into the receivers of the head section on the left or right hand side. State right or left side. The catching handle can be adjusted in both height and depth.

- **(C) 064621E Each (Monthly Rental)**
Therapeutic Sleep Surfaces

**Therapeutic Mattress**
Can be used with or without added on power therapy unit to provide lateral rotation modalities. Sleep surface 80” x 36” x 7”, closed air system using star chambered air cylinders to provide greater air displacement and weight distribution, safety edge with bolster design, dual heel protection with gentle heel slope, zoned design foam to help minimize shearing. More than 800 individually articulating cells. Provides alternating pressure and continuous lateral rotation with add on pump. Dual microclimate covers. Inner air delivery covers with dedicated air supply with continuous airflow, the other a vapour permeable, fluid proof outer cover that is machine launderable. For prevention in high risk patients, excessive perspiration or maceration, treatment of stage I-VI ulcers, for patients who can’t reposition frequently. Weight capacity 350 lbs for lateral rotation mode, and 500 lbs for non-powered and alternating modes. *Span America A45 CL803629* (A) 062325 Each

**Pump Control Unit, Custom Care Convertible LAL**
For therapeutic sleep surface, quick connect, colour coded air lines, anti-microbial treatment embedded in control panel, push-button therapy selection provides air loss, alternating pressure and lateral rotation, comfort adjustment, disconnect button resets surface to non-powered setting. Max current 1.0 AMP, leakage current <100 micro-amps, voltage 120 AC, all components latex-free, 12.5 lbs. *Span America A45 8400* 062323 Each

**Pressureguard APM2 Mattress**
Alternating pressure/lateral rotation air therapy surface, pressureguard APM2, 35” x 80” x 7”, with digital control unit, treatment flexibility with four modes: alternating pressure, lateral rotation, powered floatation, timed auto-firm, comes with digital multi-function control unit, safety edge, shear transfer zones, protective heel slope, fluid proof, anti-microbial cover, weight capacity 350 lbs. *AP8054-29* 067497 Each

**Pressureguard Bariatric APM Mattress**
Aggressive treatment through to stage 4 ulcers, prevention of pressure injuries in immobile or high risk patients, with digital control unit, up to 4 times the air output, eight comfort settings, programme cycle times, low pressure indicator and audible alarm, fluid proof, anti-microbial cover, 54” x 80” x 7”, weight capacity 750 lbs. *AP8054-29* 067498 Each

**Pressureguard Custom Care Mattress**
Non-powered, reactive pressure redistribution surface, recommended for use in prevention and treatment of stage 1 and 2 pressure ulcers and treatment of uncomplicated stage 3 and 4 ulcers, bi-directional stretch cover, anti-microbial, fluid impervious, multi-zoned to minimize shearing, safety edge bolster design, dual heel protection with heel slope, transfers pressure onto pressure-tolerant lower legs, weight capacity 500 lbs. *NP803629* 067500 Each
Hospital Bed Mattresses

**GeoMatt Pro Mattress**
Therapeutic foam, single layer, zoned construction, primary use for prevention of skin breakdown, for use with patients for moderate to high risk skin breakdown, decreased mobility, anti-shearing surface, heel slope, hidden zipper for infection control, 300 lb weight capacity, 80" L x 35" W x 6" H. Span America PR8035-13
050212 Each

**Nebulizers & Supplies**

- **Electric Nebulizing Compressor**
  34 PSI (max pressure), CSA approved, for use with aerosol medications. Weighs less than 3 lbs.  
  (D) 028930 Each

Order inquiries? 204.945.3000 | Items may not be exactly as shown
Nebulizers & Supplies

Disposable Nebulizer
Medication, hand-held.
(A) 028926 Each

Tubing
Latex-free, extension tubing, 7” long.
(B) 028922 Each

Face Masks
Latex-free, elongated, aerosol, individually wrapped, for use with hand nebulizer and/or 22 m ID corrugated tubing.

  Pediatric
  (C) 028928 Each

  Adult
  028929 Each

Nebulizer Kit
Latex-free, includes: mouthpiece, tubing and Nebulizer.
(D) 028964 Each

Open-Vent System Nebulizer
6 month, aerosol output increases with aspiratory flow, output rate is controlled by the patient’s breathing by means of a valve system during continuous mobilization. *Pari LC Plus*
(E) 044882 Each

Respiratory Therapy Supplies

Silent Air Compressor
Means of delivering medication in a mist form, provides moisture. 10 – 51 PSI, 120 V, CSA approved.
(F) 028934 Each

Cold Air Nebulizer
Disposable.
(G) 028924 Each

Trach Mask
Adult, aerosol, connector swivel 360 degrees.
(H) 042261 Each

Corrugated Tubing
22 mm, 100 feet, 6” intervals.
042262 Case

**Suction Aspirators**

**Electric Suction Aspirator**
- Oil-less, includes overflow bottle, bacteria filter prevents contaminant damage, vibration-free, easy-to-read regulator gauge, suction is adjustable with dial, vacuum regulation from 0 to 22" HG, flow rate is 28 LPM, quick-connect tubing for all connections. *Schuco Inc. S330*
- **(A) 028846 Each**

**Portable Suction Aspirator**
- Designed to fit active lifestyles. Small, lightweight battery or AC operation, with a convenient padded carry case to make portability easier. 115 and 12 volt internal battery operating modes, internal battery charger, vacuum adjusts from 80 to 550 mm high. 27 l/minute, includes 800 cc collection bottle and tubing. Easy-to-read built-in regulator and vacuum gauge. *Vacu-Aide*
- **(B) 028852 Each**

**Suction Unit Catheters**

**Yankauer Suction Instrument with Vent**
- Latex-free, bulb-tip, single use, sterile. (Use with SAPs 028846/028852) *Allegene K86V*
- **(C) 027739 Each**

**Yankauer Suction Tube**
- Sterile, fine-tip, 50/case.
- **050751 Each**

**Canister Set**
- 800 cc, filter elbow and tubing with integrated filter for portable suction machine SAP 028852.
- **053163 Each**

**Canister**
- Disposable, 800 cc, for suction machine SAP 028846.
- **053164 Each**

**Long Tubing**
- 72" L, dark blue tipped, for suction machine SAP 028846.
- **053162 Each**

**Short Tubing**
- 13" L, blue tipped, for suction machine SAP 028846.
- **053161 Each**

**Bacteria Filters**
- For suction machine SAP#028846, 3/pk. *Barb X thread*
- **028955 Each**
### Jay Cushions

**Jay 2 Cushion**
Lightweight, low maintenance, for high risk skin breakdown, contoured firm foam base provides optimal pelvic positioning, 2” of Jay Flow fluid contained in the seat well, conforms to bony prominences, provides maximum pressure distribution and reduction, includes ballistic edged cover, 250 lb weight capacity.

Jay Cushions

Jay GS Cushion
For high positioning needs, moderate to high risk of skin breakdown; firm polyethylene foam base is pre-contoured with an anti-thrust shelf to keep the pelvis from sliding forward. A variety of secondary supports helps to position and maintain optimal pelvic and lower extremity posture. The longer seat well can be used to accommodate the fixed posterior pelvic tilt of sacral sitters, standard fluid pad provides shear reduction and improved pressure distribution for users at moderate risk, oversized urethane cases protect against shearing and moisture, includes Jay Flow fluid pad and incontinent-resistant cover, 250 lbs weight capacity.

Jay GS Pressure Relief
Pressure relief fluid pad for high positioning needs, moderate to high risk skin breakdown, pre-contoured firm polyethylene foam base with an anti-thrust shelf keeps pelvis from sliding forward. A variety of secondary supports helps to position and maintain optimal pelvic and lower extremity posture, longer seat can be used to accommodate the fixed posterior pelvic tilt of sacral sitters, standard fluid pad provides shear reduction and improved pressure distribution for users at moderate risk, oversized urethane cases protect against shearing and moisture, include incontinent-resistant cover, 250 lbs weight capacity.

Jay Cushion Back Supports

Jay 2 Back Support, Regular
Regular height (16.5" tall), offers a lightweight, easy-to-use design for pelvic and trunk positioning. Ability to adjust height, angle adjustment up to 15 degrees. Lightweight aluminum shell and contoured foam insert, optional fixed or swing-away trunk supports enhance trunk posture and positioning, optional spinal fluid pad insert provides pressure and shear reduction for protruding areas along the spine, two lumbar shims, universal mounting hardware and air exchange cover, 250 lb weight capacity.

Jay 2 Back Support, Tall
Tall (23" tall), offers a lightweight, easy-to-use design for pelvic and trunk positioning, height and 15 degree angle adjustment, lightweight aluminium shell and contoured foam insert, optional fixed or swing-away trunk supports enhance trunk posture and positioning, optional spinal fluid pad insert provides pressure and shear reduction for protruding areas along the spine, two lumbar shims, universal mounting hardware and an air exchange cover, 250 lb weight capacity.

J2 & J2-Tall Back Accessories

Jay 2 Deep Contour Back Support
19" tall, fits the body first, then the wheelchair, offers up to 15 degrees of back angle adjustment for facilitation of trunk extension, postural stability, and visual orientation, accessories attach with Velcro, contoured foam insert, optional posterior pelvic supports, deep lateral wall provide excelld lateral trunk stability, optional spinal fluid pad insert provides pressure and shear reduction, comes with a posterior pelvic support, two lateral support wedges and two posterior lateral pelvic supports, universal mounting hardware and an air exchange cover, 250 lb weight capacity.

Jay Active Back Support
With quick-release mounting hardware, designed for high performing wheelchair users who require firm support, enhanced freedom of movement and relief from lower back fatigue, promotes posterior pelvic stability, back-angled wedges can be added inside the cover to provide more customized positioning, pelvic stability helps to decrease shear, comes with a back wedge, lumbar shim, mounting hardware and an air exchange cover, 250 lb weight capacity.
Roho Cushions

Low-Profile Roho Cushions
2” (5 cm) interconnected air cells maximize stability of the user while protecting from a potential risk of tissue breakdown. Lightweight and portable, this cushion is ideal for the active individual. Includes 1 standard cushion cover.

- 15” x 15”, 9 cells x 9 cells. 1R88LPC 050367 Each
- 18” x 16”, 10 cells x 9 cells. 1R109LPC 050386 Each
- 18” x 18”, 10 cells x 10 cells. 1R1010LPC 050387 Each
- 20” x 16”, 11 cells X 9 cells. 1R119LPC 050388 Each

High-Profile Roho Cushion
4” (10 cm) interconnected air cells provide an adjustable, low deformation, counter-pressure environment that assists in the healing of ischemic ulcers. Appropriate for the high risk client, two-way stretch cover, inflator pump and repair kit.

- 13” x 16”, 7 cells x 9 cells. 1R79C 050366 Each
- 15” x 16”, 8 cells x 9 cells. 1R89C (A) 028877 Each

**StimuLite Cushions**

**StimuLite Cushions**

Excellent pressure relief and comfort for a wide range of disabilities. Three layers of honeycomb enable bony protuberances to sink freely into the cushion while supporting the surrounding anatomy; internal contouring provides uniform load distribution and exceptional stability. Stiffer honeycomb creates internal side bolsters for added support, unique ventilation system. Tiny perforations in the honeycomb cells circulate air and evaporates moisture to keep cool and dry. Ideal for incontinence. Antifungal and antibacterial, naturally resists odour. Washer and dryer safe.

**StimuLite Contoured Cushion**

Ideal for those who require greater positioning and a high level of pressure management. Multilayered honeycomb is shaped into a subtle contour and specifically engineered with soft and firm areas. Rear dish provides optimal pelvic positioning for improved posture and stability, and features a sweet spot, a softer honeycomb material that contains the ischials and coccyx and helps prevent hammocking. Tiny perforations in the honeycomb cells circulate air and evaporates moisture to keep cool and dry. Ideal for incontinence. Made from a biomaterial that is antifungal and antibacterial, naturally resists odour. Washer and dryer safe.

**Cushion Pump**

Hand-Held Pump

For dry floatation cushion. *Roho #HP-10 (A) 028888 Each*

**Transfer Aids**

**Transfer Belt**

With quick release buckle and six handles, washable. *Sunnyfield*

- Small, waist size 22” – 35”, 4” wide.
  090000 Each
- Medium, waist size 26” – 46”, 4” wide.
