

Summer Bug Safety

Warmer temperatures are just as appealing to insects as to Manitobans eager to be outside. Stay sting-free and bite-free this summer by following some simple guidelines:

- Avoid heavy perfumes and scented soaps - these sweet smells will attract some insects.
- Wearing bright colours and flowery prints can attract bees or wasps.
- Mosquitos congregate around pools of water, while Deer ticks can be found in wooded or grassy areas. Wear long pants and long sleeves in these areas to be safe.
- Once you're back inside, take a shower to wash off any remaining insect repellent. This may also wash away any ticks that haven't yet latched onto your body. Check yourself thoroughly as well, including ears, waist, head, belly button, arms and legs.
- Check DEET concentrations on insect repellents. Products containing DEET should not be used on children younger than six months, and avoid contact with your mouth or eyes.

MDA will be closed on Monday, August 6 to observe Terry Fox Day. Deliveries and regular business hours will resume Tuesday, August 7.
